DUBAI —The first souvenir gold coin for Dubai will be made available from September this year, according to Dubai Multi Commodities Centre (DMCC).

The DMCC has appointed Jumeirah Retail, part of Jumeirah Group, and Dubai Duty Free as authorised distributors for the 'Visions of Dubai' series of souvenir gold coins.

Produced in Dubai under the guidance of DMCC, the first coin in the series features the image of His Highness Shaikh

Mohammed bin Rashid Al Maktoum, Vice-President and Prime Minister of the UAE and Ruler of Dubai, on one side, while Burj Al Arab is engraved on the other.

Other coins in the series will feature landmark images of Dubai that also reflect the identity of the emirate. "The 'Visions of Dubai' series of gold coins will serve as high-value tokens that visitors can purchase and take home as mementos and gifts," said Colin Griffith, Executive Director for Gold and Precious Metals, DMCC.
